

Face Shield With Adjustable Headband

Item No.: 361362534

Product information

To guard the welder against the danger of ultra-violet rays and bits of welding slag in the eye, proper protection is extremely necessary.

Face shields for welding are made of lightweight, robust plastic material that is unaffected by heat, cold or moisture. Glasses and shields are both conformed to relevant EN standards: CE approved and conformed to EN 175: 1997.

Features

- The flip-up front frame is fitted with a filter shade glass with shade selected according to welding current used.
- The filter shade glass is protected against spatter by a clear protection glass fitted in front of it. Shade 11 glass is supplied as standard with the shield.
- A clear safety glass is placed in the fixed frame under the flip-up frame protecting the eyes when chipping slag.

Benefits

- Fits all head sizes
- Provide safety and long lasting quality
- Protects welder when chipping slag and when grinding
- Comfortable to use
