

Safety Electrode Holder 200A with DIX70 Connector

Item No.: 361362917

Product information

A 200A electrode holder assembly that has a 3m 35mm² cable and DIX 70 connector for 200A-3 Phase Welding Inverter. Our lever screw type, fully insulated electrode holders, feature an especially robust and safe clamping arrangement for the electrodes. We have available three types of electrode holders: the 200A, the 400A and the 600A.

Features

- Fully insulated electrode holder with the lever screw locking mechanism design
- Strong and simple construction
- In accordance with Standard 2006/95/EEG concerning low voltage, and conform to EN 60974-11

Benefits

- Prevent accidental electric arc sparking as no exposed conductive components
- ‘Plug and Play’ with 3m cable and DIX connector to welding machine
- Offers higher protection from electric shocks or electrocution for welders compared to other design of electrode holders

Specification

General:

Invent Hazard Material (IMO/EU) classification	NA
